EXECUTIVE SUMMARY

Translator. Video Editor. Junior Fullstack Web Developer. Test Automation Engineer

Having hands-on experience in web development, I have worked on various projects that strengthened my skills as a Junior Full Stack Web Developer specializing in the MERN stack (MongoDB, Express.js, React, Node.js) and PostgreSQL. I thrive in collaborative environments, demonstrating effective communication and teamwork abilities. My problem-solving mindset and solid understanding of programming concepts and algorithms allow me to develop efficient and scalable web applications. In addition to web development, I also have experience as a part-time translator for a movie website and possess proficiency in video editing.

WORK EXPERIENCE

- Junior Full Stack Developer – Civil Master Solution Company (Present)
- Test Automation Intern – Brillar Company (May – August 2025)
